Romance of Y. M. C. A. Worker and French Girl Aired in Deportation Case.

WASHINGTON, June 1.—Warrants for the arrest and deportation of Madeline Babin and her mother and sister on charges that they entered the United States from France for improper purposes, were cancelled today by Assistant Secretary Post.

Evidence in the case presented at the department of justice said the women came to America at the invitation of Lee Shipper, of Kansas City, Mo., formerly a Y. M. C. A. worker in France. Shipper, it was testified, lived with the Babin family while overseas, and "an attachment arose between him and the eldest daughter."

Upon his return to the United States, he and his wife became estranged and are now living apart. She in Los Angeles and she in Kansas City.

"Evidently he wishes her to institute proceedings for a divorce and she refuses, evidently if he were divorced he would marry the alien who is about to be, if she has not already become, the mother of his child, the report said."

As the boys will not have sufficient time in which to wait for the owners of the cars to appear and give permission, the Scouts will place the stickers on the windshields and the owners are requested not to be offended. The object in view is to give encouragement to an organization that is proving to be a salvation to the boys of America.

COURT ACTS ON U.S. AMENDMENT

Changes in Constitution Cannot Be Submitted to State Referendum Vote

WASHINGTON, June 1.—The supreme court failed again today to decide the validity of the prohibition amendment and portions of the enforcement act and recessed until next Monday when the present term will close.

The supreme court held that federal constitutional amendments cannot be submitted for ratification to a referendum vote in the states having referendum provisions in their constitutions.

The court declared inoperative the Ohio state constitutional referendum amendment insofar as it affects ratification of federal amendments. Ohio supreme court decree dismissing injunction proceedings brought by Geo. S. Hawke, of Cincinnati, to prevent submission of the prohibition and woman suffrage amendments to the voters were set aside by the court.

The supreme court refused to interfere with decisions of the North Dakota supreme court declaring constitutional a series of state constitutional amendments and statutes to carry into effect an industrial program in North Dakota and permitting state bond issues to finance the enterprise.

Government appeals of the federal anti-trust suit against the Quaker Oats company were dismissed today by the supreme court on motion of the government.

Disolution of the company under the Sherman act was asked by the government, but the company won in the lower court.

SAY EUROPEAN BUYERS AVOID YANKEE GOODS

LONDON, June 1.—European buyers are avoiding American goods when they can get others.

This is the note of warning uttered by the American chamber of commerce in London and the seriousness of this aspect of the foreign trade situation is emphasized by the Weekly Export Bulletin, which points out that every factor favorable to laying the foundation of permanently great exports is present—with the exception of credit.

"The American business world finds itself almost entirely without the credit necessary to finance exports," says the report. "The glorious talk about the Edge bill, the billion dollar fund of the war finance corporation, and the other schemes for financing exports have all faded away. The banks appear unable even to supply all the loans demanded for domestic business."

"The depreciation of the European exchanges and the consequent restriction of the purchasing power of this country is a factor which many American manufacturers failed to reckon in earlier and more optimistic calculations."

However, the report of the American chamber of commerce expresses much hope in the future for American trade in Europe if the American merchants will get together and assist in adjusting the exchange balance. Without some co-operation in this way it is apparent that American business interests will suffer in the near future.
